

The Impact on ESG Performance of Businesses & Organizations

“ ESG can allow firms to foster a meaningful change in the global economy, and in the communities in which we live and work. It’s not just an investment, but also a commitment on a sustainable future for the communities”

Environmental, Social, Governance

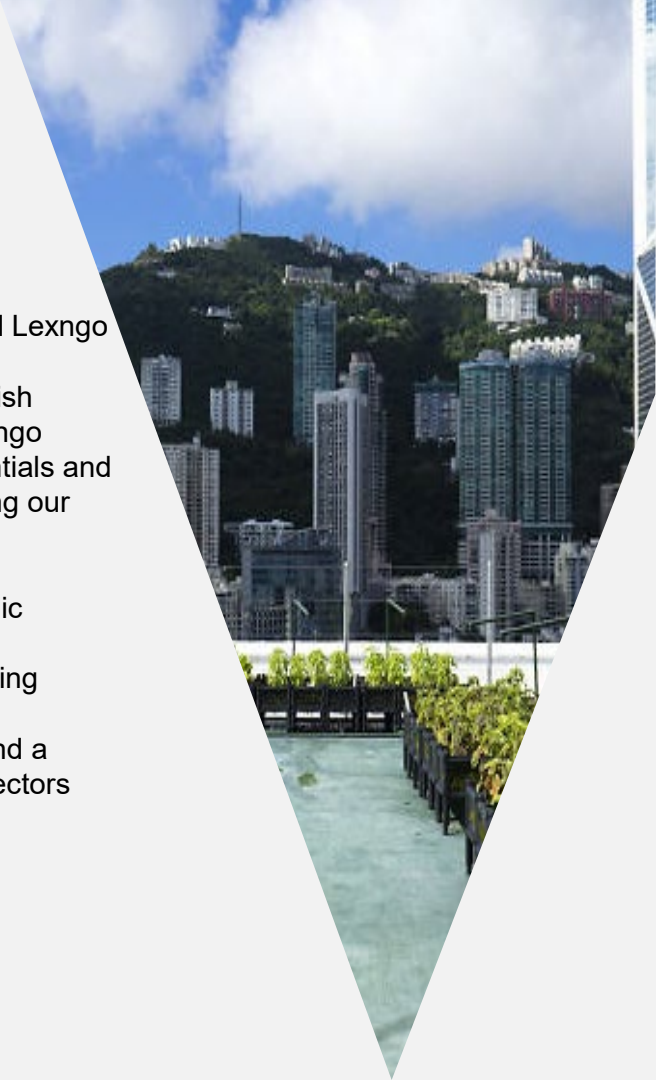

ENVIRONMENTAL SOCIAL GOVERNANCE •

- A **Framework** to include non-financial factors in corporate performance, with a specific set of criteria
- Inclusion of ESG **Risks and Opportunities** in corporate strategy and investment. The financial return is no longer the prime objective
- Investor perspective, aim to **Drive Investment** towards companies with lower ESG risk or good ESG performance
- Measurable, data-driven

ABOUT

Lexington Limited was founded in 1989. Our house brand Lexngo is a pioneer in manufacturing and design of breakthrough eco-friendly lifestyle products. With our exquisite and stylish product designs that cater to evolving market needs, Lexngo develops a range of durable, eco-friendly and daily essentials and lifestyle products. Given that, Eco mission on the go being our spotlight and receiving a lot of public attention.

As growing environmental consciousness along with public awareness of sustainable investing & ESG (Environmental, Social and Governance), Lexngo is striving towards integrating the value proposition of ESG into the companies perspectives. Through the Green Solutions and a number of recommendations to both private and public sectors to enhance a sustainable value for our society.

Targeting babies, toddlers
and children market

Vision and Mission

Lexngo has two corporate visions: Firstly we promote a sustainable environment for the physical and mental wellbeing of our future generations. Secondly we strive to promote an eco-friendly way of living.

Lexngo is concerned about the sustainability of our environment, so “5R” has become our corporate mission: Reduce, Reuse, Recycle, Rethink, Redesign. We incorporate “5R” into our product designs to promote the ecological concepts. This coincides with our business motto “Think Reusable Less Disposable”, to lessen the burden on earth’s limited resources.
