Who we are

Lexington Limited was founded in 1989. Our house brand Lexngo is a pioneer in manufacturing and design of breakthrough eco-friendly lifestyle products. With our exquisite and stylish product designs which cater to evolving market needs, Lexngo develops a range of durable and eco-friendly essentials, as well as lifestyle products. Given that, “Eco mission on the go” is our spotlight and is receiving a lot of public attention.

As environmental consciousness and public awareness of sustainable investing & ESG (Environmental, Social and Governance) continues to grow, we strive towards integrating the value proposition of ESG into our vision. Through a dedicated focus towards product quality, customer/client experience and achieving high ESG standards, Lexngo has the competitive edge over its competitors.

What is ESG?

ENVIRONMENTAL SOCIAL GOVERNANCE

- Environmental, Social, Governance
- A **Framework** to include non-financial factors in corporate performance, with a specific set of criteria
- Inclusion of ESG **Risks and Opportunities** in corporate strategy and investment. The financial return is no longer the prime objective
- Investor perspective, aim to **Drive Investment** towards companies with lower ESG risk or good ESG performance
- Measurable, data-driven

...And we incorporate ESG into our vision

Environmental

- Creating an environmentally responsible workplace
- Promoting an eco-friendly lifestyle(5Rs)
- Building a financially and environmentally sustainable production line
- Employing an adaptable business model to meet evolving environmental trends

Social

- Preserving a healthy relationship with supplier, client and partners
- Educating the public and nurturing the next generation
- Ensuring fairness in employment and trade throughout the supply chain
- Catering for the health and safety of our customers

Governance

- Building a sustainable, complete corporate structure
- Strengthening corporate security and risk management
- Promoting equality and a harmonious work culture
- Utilising AI and data analysis to improve product quality and customer experience

What is rPET?

Recycled polyester is made from recycled bottles

The collected and recycled bottles are delivered to the collection centers, where they are sorted, cleaned, shredded, and made into pellets

Pellets can be used as a raw material for many types of plastics, including polyester yarn for fabrics, also known as rPET

The Life Cycle of rPET

Made from **recycled PET bottles** rPET collects plastic already in our economies converting it into a reusable material to produce sustainable new products.

Lexngo Better Taste, Less Waste
Developing a Sustainable Habit

Plastic-Free Meal Made Easy

Lexngo "Our mission is to help the public and businesses cease or reduce using single-use cutlery and straws, take-away containers and plastic bags."

Brianna Wong
Operation Director

Carliotta Wong
Managing Director

Caroline Law
Brand Advisor

Echoasia, April 2024

Hong Kong ESG Awards cum ESG Pledge Presentation Ceremony, Oct 2024

THE English Channel

Lexngo is a Hong Kong company that comes up with eco-friendly drinking items. Named in 2019, it is made from high-quality silicone, a much more eco-friendly substance than plastic. It is currently the only reusable drinking glass in the world that can be washed thoroughly, cleaned and reused in the next again. This ensures glass hygiene. "Given the huge number of items being used globally, with the 'willing' glass in hand can make a big difference to the environment," said Carliotta Wong, founder and CEO of Lexngo.

The Bulletin, Oct 2023

Zero Waste Solution

Lexngo has a mission for the environment – a brand manufacturer in Singapore, which develops innovative products to reduce disposable and single-use items. Welcoming partnerships across consumer products, household necessities, gifts & promotions.

Lexngo has offices in Singapore and Hong Kong, production lines in China and Vietnam. We have a great team of experts providing concept, R&D, small batch manufacturing, trial samples support, quality assurance, IP protection, products certificates, ASEAN and China Sales Channels development.

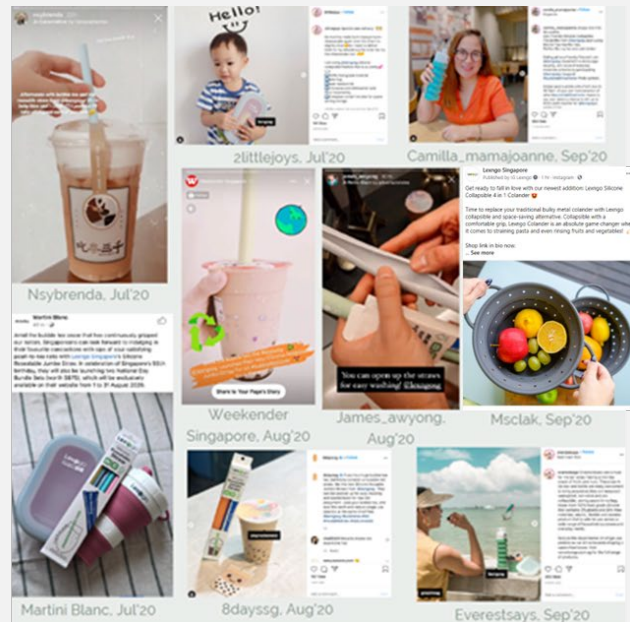

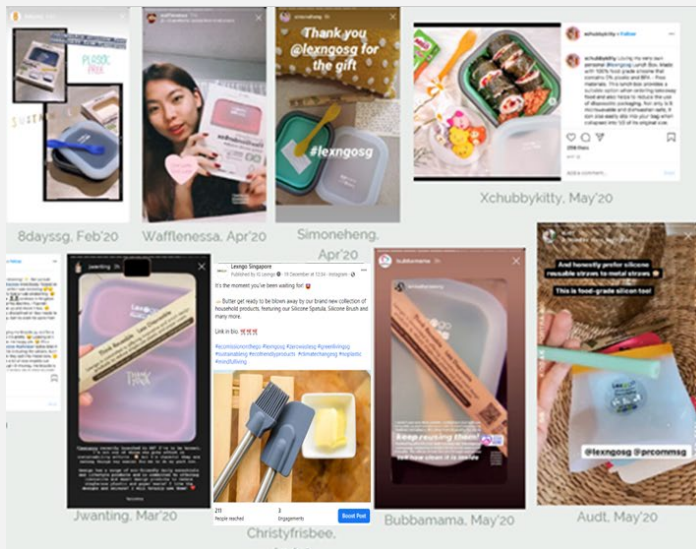

Carliotta Wong, co-founder and managing director of Lexngo Pte (Singapore) Limited, hopes to encourage consumers by showing that every little effort makes a difference, and it begins with the conscious effort to use reusable products.

The key elements that encompass Lexngo's business motto of **BUY BETTER - BUY LESS**.
By incorporating innovative product design and the 3Rs – **REDUCE, REUSE, RECYCLE**.

Lexngo was recognized for design excellence & creative innovation at the First Silk Road Women's Innovation Design Competition 2017 and was awarded "Sustainable Product Supplier" in 2019 and 2020.

HousewaresNews, Mar 2022

Social Media Sharing

Positivity, hope and commitment have always been Carlotta's beliefs. She incorporates her beliefs into the production line and promises her clients the best designs and materials of the highest quality. As an acknowledgement to Carlotta's commitment, she received the First Silk Road Women's Innovation Design Award in 2017, followed by the Greater Bay Area Outstanding Young Women Entrepreneur Award in 2018. As a female entrepreneur, she is particularly concerned about the status of women in business. Hence, she uses her experience and knowledge to regularly give talks at various organizations to spread positive energy to women, striving to improve women's status in business.

Carlotta Wong
Co-founder &
Chairlady

Ronald specializes in manufacturing Silicone products, with extensive expertise of over 15 years. Prior to joining Lexngo, he engaged in OEM/ODM businesses of ECO products and dedicated to developing R&D technology for upgrading the products' standards and specifications. Having accumulated comprehensive experience in management and expertise in the industry, Ronald aims to provide the most cost-effective products of premium quality to customers.
